## honle group

## **Press Release**

**About uv-technik Speziallampen GmbH:** Since 1991, the company has been the expert for customized UV components. From UV and IR lamps to electronic ballasts and UV sensors, uv-technik Speziallampen GmbH offers a wide range of innovative products. Development, production and sales are based in Ilmenau, Germany.

**About Hönle Group:** In addition to the parent company UV systems specialist Dr. Hönle AG (UV / UV-LED units and systems, professional lighting technology), the Hönle Group comprises sheet-fed offset specialist Eltosch Grafix (UV/ LED-UV/IR/hot air dryers and peripheral units, e.g. ink fixation and powder systems), the UV specialist for web printing PrintConcept, Technigraf (LED-UV/UV conveyor belt dryers and special plant engineering) as well as coating expert GEPA (coatings systems, equipment).

The company group's glass division consist of quartz glass expert Raesch (customized quartz glass components) and uv-technik Speziallampen (IR and UV lamp manufacturing, power supplies, sensors).

In the field Life Science Engineering Sterilsystems and UMEX develop UVC devices for air, water and surface disinfection.

Sun simulation systems are offered by the mother company Hönle (UV systems for industrial applications) as well as by Luminez (microwave-excited sulfur lamps for plant breeding).

A further subsidiary is the specialist for industrial adhesives Panacol. The German based Hönle Group owns local subsidiaries in China, France, UK and the USA as well as a sales office in Italy. The company group has an extensive worldwide network of experienced sales and service partners.
